

EDITORIAL

Dear Academicians and Researchers,

Firstly, positive criticisms and evaluations on the first issue of the Journal, which was delivered to experts and researchers related with higher education from approximately 40 countries including Turkey and its neighbors, have given us strength.

The second issue includes studies on university ranking systems; higher education, quality assurance, and ethics in Turkey; European Union education programs; distance education; and education in Turkey during the Menderes period.

I hope you enjoy the new issue of our Journal.

Best regards,

Professor Şükrü Oğuz ÖZDAMAR, M.D.

Editor
