

EDITORIAL

Dear Academicians and Researchers,

We present you the third issue of 2011. In this issue, studies on the philosophy of higher education, current status of higher education in our country, as well as problems encountered and suggestions for solutions are included.

As you know, our journal is published in order to establish a scientific discussion platform on every issue related to higher education. I would like to emphasize that we are always open to your researches as well as comments and suggestions. Qualified articles as well as your encouraging messages alleviate our exhaustion.

Hereby, I would like to thank our administrators, authors and my colleagues, particularly Dr. Burak BAHADIR, because of their valuable contributions in publication of our journal.

I wish you health and happiness in the New Year.

Best regards,

Professor Şükrü Oğuz ÖZDAMAR, M.D.
